

How to take action when you have both Marketplace & Medicaid/CHIP coverage

If you're eligible for Medicaid or the Children's Health Insurance Program (CHIP), you don't qualify to get help paying for your Marketplace plan. You may have gotten a notice about this in the mail or your Marketplace account.

You must either:

- End your enrollment in a Marketplace plan with financial help, **or**
- Update your application (to tell the Marketplace you're not enrolled in Medicaid or CHIP)

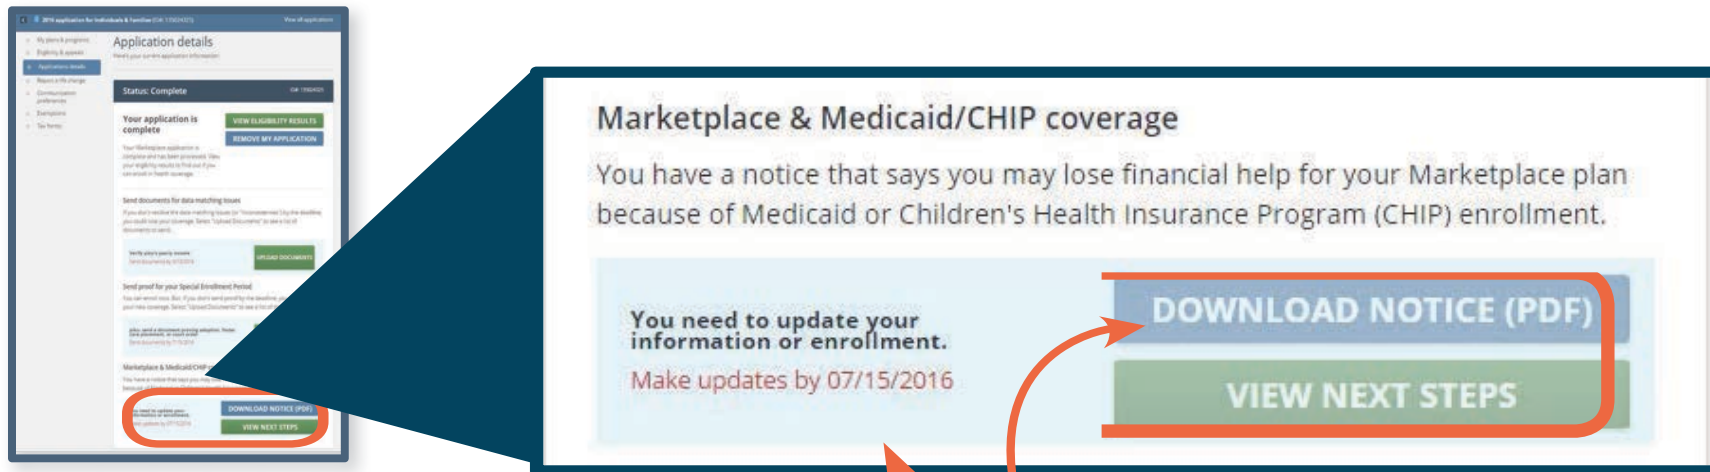

Follow these steps to find out which action(s) you'll need to take and how to do it.

3. Click "Application Details" from the left-hand menu.

Look at the “Marketplace & Medicaid/CHIP coverage” section for your deadline, then view next steps

IMPORTANT: Be sure to take action before this date.

More answers on Marketplace & Medicaid/CHIP coverage

What if people on my application aren't listed on my notice as having Medicaid/CHIP?

You may have other people on your application who aren't listed in the notice. This means our records show these people don't have Medicaid or CHIP. You don't need to take any action for them to keep their current Marketplace coverage.

What if I don't take any action?

If you don't take action by the date listed in your notice, the Marketplace will end any financial help being paid on behalf of the people listed in the notice for their Marketplace plan (known as "advance payments of the premium tax credit" and "cost-sharing reductions"). After their financial help ends, these people will stay enrolled in their Marketplace coverage at full cost unless you take action.

Can I keep my Marketplace plan, and Medicaid or CHIP?

If you're eligible for Medicaid or CHIP that counts as qualifying coverage, you can choose to stay enrolled in a Marketplace plan, but you won't get help paying for your coverage.

Where can I get help?

Contact the Marketplace Call Center at 1-800-318-2596 (TTY: 1-855-889-4325). Or, you can make an appointment with a trained assister. Find one near you at LocalHelp.HealthCare.gov.
